

Developed in a university partnership, Caring Dads is an evidence-based group intervention program for men who have abused, neglected, or exposed their children to domestic violence. The Caring Dads curriculum works with fathers to change patterns of abuse, to increase fathers' awareness and application of child-centered fathering, and to promote respectful co-parenting with children's mothers.

Facilitator Training Event Perth, WA, Australia

Course Format

INTENSIVE IN-PERSON TRAINING

This component is delivered over 2 days and introduces participants to the principles and values that guide the Caring Dads program. We then move into interactive training on the program material. Role plays are used to demonstrate key exercises and participants have the chance to acquire and practice skills in leading group exercise.

CLINICAL CONSULTATIONS

This component is delivered online via our distributed learning platform, the Pro-Portal. Each Clinical Consultation session includes a live webinar presentation, a set of self-reflection guides, a selection of best practice videos and an evaluation. This series is designed to offer clinical oversight and support to new Facilitators as they deliver their first Caring Dads groups, and may be completed within a minimum of 4 months, and a maximum of 1 year following the In-Person Training Course.
